

# Scribing reminders

Don't hesitate to:

- Ask folks to type `present+` in IRC to get the list of participants
- Interrupt the meeting if you're missing something or getting distracted
- Ask for someone to scribe you while you're speaking  
They can use `scribe+`, `scribe-`
- Know the bots' commands (if you're using IRC):  
Use `s/foo/bar/`, `topic:`
