JSON-LD 1.1 API

Eight deferred issues

- #76 More compact `@prefix`

- #94 Expansion concept "key's term definition" is unclear with compact IRI keys

- #166 Relationship to the RDF/JS Dataset interface(s)

- #380 Expansion does not take property-scoped contexts for nested properties into account

- #391 Recursively nested properties and compaction

- #435 relative iri compaction

- #473 Lists, sets, and multisets

- #480 Is the possibility of having `@id: null` in an expanded document intended?

JSON-LD 1.1 Framing

Two ErratumRaised

- #110 Should tests for `@embed: @last` be restricted to JSON-LD 1.0?

- #116 Ex. 41 Playground doesn't contain `@omitGraph: false` + playground does not apply `@omitGraph`
